Abacus[®]
World Leaders in Lighting

WORLD PROVEN BRITISH ENGINEERING

Across the Globe, Mobile Networks depend on Abacus Monopoles and Mast structures. Our expert, proven engineering, advanced manufacturing and unrivalled experience means that Abacus telecoms structures can be found in some of the most inhospitable and challenging environments across the World.

Abacus Monopoles are designed for GSM, microwave, broadcast, and a variety other applications.

Our poles offer true bespoke capability with a variety of configurations, from Working Platforms through to Curved Arms, to provide effective and safe infrastructure for any mobile network.

Our advanced manufacturing plants in Europe and Asia utilise the latest technology and equipment to deliver the highest quality products, on time every time.

AT A GLANCE
